

CURRENT AND DESIRED: WORKING PAPER

The future state as described at the 9 Sep meeting. Not part of the discussion piece; not an endorsed position. Held until AITC has answered the question on page 2.

LDF TRANSITION	SOLDIER: RANK	COURSE AND DELIVERY	LINKAGE NOW	DESIRED	OFFICER: RANK	COURSE AND DELIVERY	LINKAGE NOW	DESIRED

WHAT THIS WOULD INVOLVE, AND WHAT IS NOT YET KNOWN

No new course would need designing: ILD and NZLC already deliver each course on this page. The change is the linkage written into promotion policy, ILD seat allocation aligned to Army promotion timing, and the officer window placed after unit experience. Whether guaranteed seats and aligned timing carry a capacity or resource implication is not known and must be tested before any of this is proposed.

VISUAL LOGIC

Shaded DESIRED cells are the change. This page answers the meeting action for a current-versus-desired mapping and stays an ALC working paper: COMDT asked whether the difference is deliberate, and Army has not yet answered.
