

CREST CENTRE SYMBOLS — ITERATIONS

Replacing the CM monogram with a combat-oriented symbol. Exploration only; no mark is endorsed.

7A CROSSED SWORDS

The traditional combat symbol — already the Combat Mindset icon on the Way Forward model.

7B CROSSED TAIAHA

Ngāti Tūmatauenga — the Army's own weapon. Combat rooted in New Zealand warrior identity. [cultural consultation required]

7C SPEARHEAD

The point of the spear — offensive spirit, momentum and the will to close with the enemy.

7D AIMING POINT

The pure reticle: one point of focus. Most minimal, most ownable, strongest tie to the roundel.

7E INNER FIRE

The warrior spirit that endures pressure — controlled, not extinguished.

7F DECISIVE STRIKE

Speed and violence of action — act decisively, rendered literally.

Any centre symbol must clear Defence heraldry and, where Māori design elements are used, appropriate cultural consultation, before adoption.
