

Combat Mindset Conditioning (CMC)

WHAT IS CMC?

COMBAT MINDSET CONDITIONING

The deliberate practice of an individual's ability to self-regulate and sustain effective performance under operational pressure.

PILLARS

COMBAT MINDSET PILLARS

The capacities we develop

Self-Awareness

Arousal Control

Operational Habit

Working Memory

Attentional Control

Cognitive Control

RESET

COMBAT MINDSET RESET

How we restore performance

SEB CYCLE

S

STATE

Recognise your state

E

EYES UP

Orient to your environment

B

BREATHE & BODY

Regulate your state

RE-ENGAGE

Return attention to what matters now

STATES

COMBAT MINDSET PERFORMANCE STATES

What effective performance looks like

Task Focus

Command Presence

Situational Awareness

Resilience

METHOD

CMC TRAINING METHODOLOGY

How we condition it under pressure

Sequenced Development

Develop the capacities in the required order.

Progressive Load

Condition them under increasing levels of pressure.

Integrated Training

Practise them within the training where they need to function.

Conditioned Response

Build effective responses that remain available when conscious capacity reduces.

Behavioural Assessment

Assess observable performance under load.

ASSURANCE

CMC COACHING AND ASSURANCE

How we maintain the standard

Army teaches, assesses and maintains the standard through trained CMC coaches, observed assessment, recertification and quality assurance.

Draws on COGCON's existing coach accreditation and assurance architecture

OUTCOME

COMBAT MINDSET

An individual's ability to self-regulate and sustain effective performance under operational pressure.

Derived architecture: COGCON, adapted by Army under the agreed IP arrangements

Army integration architecture: how ACS nests and delivers it
