

NZALC LEADERSHIP DEVELOPMENT SUPPORT TO 2 ER

Te Whiā Command Week 2026

New Zealand Army Leadership Centre | Army Command School

Date: September 2026

Purpose

To outline NZALC's contribution to Te Whiā Command Week 2026.

Context

2 ER intends to bring its new and future command teams together in a relaxed environment away from normal unit routines. The emphasis is on connection and reflection: building self-awareness, examining individual leadership styles and personality preferences, and strengthening key command relationships.

Programme

NZALC will support this through two linked phases.

MON 16 NOV

1200 – 1700

Leadership Personality Report

Facilitated exploration of individual leadership preferences, strengths, potential limitations and impact on others, including the implications for command relationships.

TUE 17 NOV

0800 – 1200

ROCKET Model

Facilitated application of the ROCKET Model to establish the conditions required for effective command teams.

The period 1200 to 1400 Tuesday will be retained as flexibility to continue productive discussion or consolidate learning if required.

NZALC support will conclude no later than 1400 Tuesday 17 November. The remainder of Command Week will continue under 2 ER command arrangements.

Delivery

DELIVERED BY

Leadership Development Wing, NZALC

PARTICIPANTS

Up to 17 personnel drawn from 2 ER unit and sub-unit command teams and relevant principal staff.

LOCATION

Off-site venue in the Palmerston North area; exact location to be confirmed.

PARTICIPANT REQUIREMENT

Each participant is to complete a Leadership Personality Report before the facilitated session.

Coordination Required

2 ER and NZALC are to confirm:

- final participant numbers and nominal roll;
- relevant command relationships and team transitions;
- venue and available training facilities;
- arrangements and timelines for completing the Leadership Personality Reports; and
- any specific command outcomes that should inform the facilitation.
